

SW21 : Rotative switch to regulate the amplification of the output signal

- 0 Minimum amplification
- F Maximum amplification

M1: External electrical connection

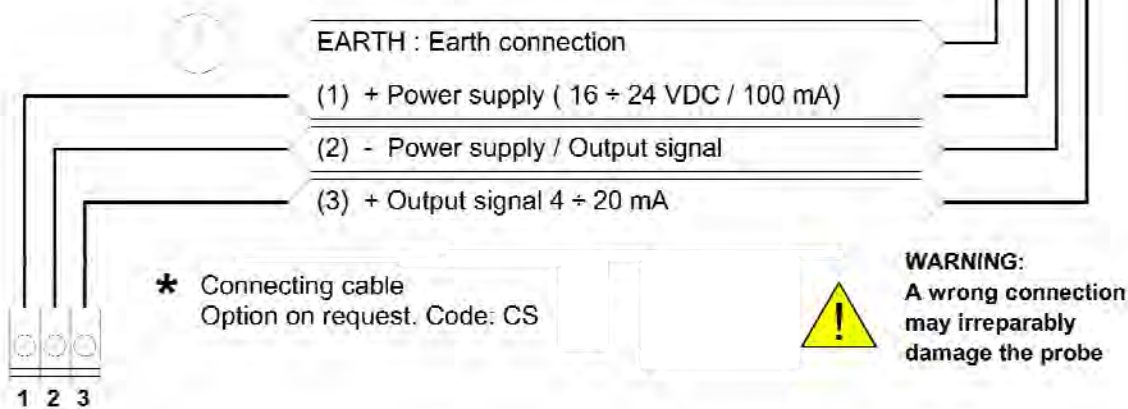

- 1 + Power supply (16 ÷ 24 VDC / 100 mA)
- 2 - Power supply / Output signal
- 3 + Output signal 4 ÷ 20 mA

The trimmer P1 and P2
SHOULD NOT BE REGULATED

	* COLOR OF THE CABLE
1 + Power supply (16 ÷ 24 VDC / 100 mA)	WHITE
2 - Power supply / Output signal	YELLOW
3 + Output signal 4 ÷ 20 mA	BROWN

Link to all models of the probe with a predisposition for tribo probe TC50

* Connecting cable
Option on request. Code: CS

WARNING:
A wrong connection
may irreparably
damage the probe
